PROFESSIONAL EXPERIENCE

Halal — Ibadan, Nigeria

November 2025 - present

Frontend Engineer - Full Time

- Build and maintain scalable, responsive web apps using Next.js and React.
- Integrate and work with backend APIs and databases, including MySQL, MongoDB, PostgreSQL, and Firebase.
- Collaborate with backend engineers, designers, and other team members to deliver high-quality solutions.
- Debug and troubleshoot technical issues to ensure smooth performance.
- Optimize applications for speed, performance, and SEO using server-side rendering (SSR) and static site generation (SSG).

PDSoft Technologies — Ibadan, Nigeria

September 2023 -2025

Frontend Developer - Full Time

- Leverage my expertise in React to build dynamic and interactive user interfaces. By collaborating closely with designers, I ensured that the user experience was seamless and intuitive. I consistently delivered projects on time, maintaining high standards of quality and performance.

- Deliver responsive designs that adapt to various devices and screen sizes, maintaining high standards of quality and performance.
- Effectively manage time to consistently meet project deadlines, ensuring the timely delivery of high-quality projects.
- Consume APIs to integrate dynamic data and functionality into applications, enhancing their interactivity and responsiveness.

Gemsread Publishing — Akure, Nigeria

June 2025 - Sep 2025

Frontend Developer - Contract

- Sole Frontend Developer, responsible for designing and implementing the frontend architecture using Next.js, React, and TypeScript.
- Collaborate with UI/UX designers to transform design mockups into responsive, accessible, and pixel-perfect interfaces.
- Conduct code reviews and work with the team to maintain clean, scalable, and maintainable codebases.
- Work closely with backend developers to integrate APIs and ensure seamless data flow.

The QA School — Nigeria

Nov 2024 - May 2025

Frontend Developer - Volunteer

- Developed the entire frontend of the HeritageHub web application using ReactJs.
- Responsible for creating responsive, visually appealing, and user-friendly interfaces, ensuring seamless user experience and alignment with project goals.
- Conduct code reviews and work with the team to maintain clean, scalable, and maintainable codebases.
- Work closely with backend developers to integrate APIs.

Cyberbuddies Ltd — Bodija Ibadan.

Dec 2023 - June 2024

Frontend Developer - Contract

- Utilized HTML, CSS, and JavaScript to build and enhance web applications, creating clean, semantic HTML structures, implementing responsive and visually appealing styles, and adding interactivity.
- Implemented interactivity and dynamic features using JavaScript, improving user engagement and functionality.
- Integrated TMDb API to fetch and display dynamic movie data, enhancing the user experience with real-time information.

Tech Diversity — Lagos, Nigeria

Dec 2022 - July 2023

Junior Frontend Developer

- Collaborated with a cross-functional team of designers and developers to create responsive websites and web applications, following industry-standard coding practices and optimizing for performance.
- Maintained and updated existing codebase, identified and fixed bugs, and conducted thorough testing to ensure the highest quality code.

Top Universe — Lagos, Nigeria
Frontend Developer - Internship

Mar 2021 - Aug 2021

- Developed reusable front-end components using modern technologies such as HTML, CSS, JavaScript, REST APIs, and React.js.
- Participated in code reviews, writing proficient and maintainable code while adhering to industry best practices and team coding standards.
